PROFESSIONAL PROFILE

Full Stack PHP developer with 7+ years of experience building production-ready web applications, e-commerce platforms, CMS/CRM systems, dashboards and REST API integrations. Experienced in Laravel, CodeIgniter, MySQL, JavaScript, debugging, deployment and maintainable application architecture.

PROFESSIONAL EXPERIENCE

Full Stack Developer

YNAPS | Remote — Mar 2022 · Jul 2026

- Designed and developed custom web applications, CMS modules, e-commerce features and administrative dashboards for client projects.
- Implemented Laravel and CodeIgniter modules for authentication, role-based access, reporting, file uploads and database workflows.
- Integrated REST APIs and third-party services, including payment-related and business-process integrations.
- Diagnosed production bugs, optimized queries and resolved UI, performance and functional issues across existing applications.
- Collaborated on feature releases, deployment, maintenance and technical documentation.

Full Stack Developer

Tamkeen International Co. | Remote — Jul 2020 · Sep 2024

- Developed responsive, database-driven web applications and client-facing features using PHP, CodeIgniter, MySQL and JavaScript.
- Built role-based dashboards, e-commerce functionality and reusable backend modules to support business operations.
- Improved application reliability through input validation, debugging, database maintenance and regression fixes.

PHP Developer

Illustrious Tech | Karachi — Dec 2019 · Jul 2020

- Implemented PHP backend functionality and responsive frontend components in coordination with designers and senior developers.
- Troubleshot application defects, maintained existing modules and improved website functionality and performance.

PHP Developer

Cloudesk Solutions | Karachi — Feb 2019 · Dec 2019

- Developed client websites and database-driven features from project requirements.
- Maintained MySQL structures, updated existing pages and fixed functionality issues during delivery.
